COLING/ACL2006

The Joint
21st International Conference on Computational Linguistics
and
44th Annual Meeting of the Association for Computational Linguistics

Coling/ACL2006 will be held in Sydney, Australia, from 17th–21st July 2006, with tutorials on the weekend before and satellite workshops on the weekend afterwards.

This is only the third time in their 40+ year history that the two peak international conferences on language technology, natural language processing and computational linguistics have been combined; it's also the first time the events have been held in the southern hemisphere. Make sure you put these dates in your diary for what promises to be an outstanding event, and bookmark www.acl2006.org or www.coling2006.org to keep up to date as further information is made available.
